Cambodia

Objective : Provide a variety of systems (multiple brands) and accessories for domestic and international operations. Include consolidation at warehouse, export packaging and international logistics.

Needs Assessment : IPA provides a comparison of a variety of brands of equipment for evaluation when determining requirements. If a certain brand is preferred, IPA can provide an assortment of options for various budgets. Test unit can be provided for some brands.

Equipment & Supplies : HP & Lenovo Desktops & Laptops; Servers, Various Accessories

Supply Chain & Logistics : IPA offers a tailored solution to meet the domestic and international requirements of the client. Goods are inventoried and tracked from the moment they arrive until the moment they depart the IPA warehouse facilities. Custom packaging is determined on the nature of the goods and the destination. IPA offers domestic transportation via scheduled LTL or courier services and international shipment via air, sea, truck, rail and/or international courier.

Support & After-sales : IPA coordinates inventory and asset management for all items. IPA also facilitates any necessary warranty and / or repair issues. IPA maintains master lists of all brands and asset and service tag numbers for future use.
