Nicaragua

Objective : Provision of Riverbed equipment to numerous locations worldwide under strict deadlines.

Equipment & Supplies: Riverbed Steelhead hardware, software and support

Supply Chain & Logistics: IPA expedited the ordering process and warehouse distribution to accommodate the strict delivery deadlines of each destination. IPA was able to reduce the overall volume of the manufacturer’s packaging by 30% resulting in great freight savings to the client. Equipment was securely packaged for each shipment according to destination and routing. IPA conducted daily monitoring of the logistics process to keep the individual field offices informed of up-to-date details for arrival.

Support & Aftersales: IPA provides access to Riverbed support for the field offices.

Reduce Packaging Volume

Secure Export Packaging
